

VIDEO 1:

1. To create chatting page we have left menu but we don't have some functionalities that is when we place on the person hover some buttons like reduce, call ,chat and another details
2. Once we double click on the person name open the conversation window and we want reduce button on top
3. We can open multiple chatting windows through the reduce button functionality
4. Need to put 3 buttons on top of chatting window(cancel,min,max)

VIDEO 2:

1. In this video for reference
